

## SKILLS

- CSS, HTML, Javascript, React, Frontend Development, Redux, React Native, MongoDB, Jest , React Testing lib, (CI/CD), API Integration(RESTful APIs, GraphQL), UI/UX Principles, TypeScript, Playwright, System Design, DSA, Micro- Frontend

## EXPERIENCE

### Sr Frontend Developer III

Dec 2023 - Present

#### UST Global (WALMART) - (Brand Portal):

Pune

- Led the development and implementation of the Brand Portal Translation, increasing international user engagement by 40% through enhanced multi-language support.
- Spearheaded the Auto Fitment Ranking feature, improving product discoverability and personalization, which contributed to a 20% rise in user satisfaction.
- Redesigned the Brand Portal, achieving a 25% boost in user engagement by creating a fully responsive and user-friendly interface across devices.
- Utilized React and Redux to implement interactive features, resulting in a 30% enhancement in platform functionality and user interactivity.
- Reduced page load times by 40% and improved user retention by 15% through targeted bug fixes and performance optimizations.
- Streamlined development processes with Git and GitHub, enhancing code management efficiency and collaboration among team members.

### Sr Frontend Developer

Apr 2022 - Dec 2023

#### Mobile Programming LLC

Pune

- Orchestrated the migration of the Market360 project from legacy technology to React.js for frontend development, resulting in a **30% improvement in scalability and performance**.
- Implemented performance optimization techniques, leading to an enhancement of 25% in application responsiveness and load times, crucial for user experience and efficiency.
- Executed unit testing protocols, resulting in a 40% reduction in bugs and errors, thereby ensuring code reliability and user satisfaction.
- Conducted code reviews to maintain high standards, promoting code quality and adherence to best practices, resulting in a 20% increase in code quality and standards.
- Applied design patterns such as componentization and state management, leading to a 35% improvement in code maintainability and extensibility.
- Enforced security measures to decrease vulnerabilities and enhance data protection, resulting in a **50% decrease in vulnerabilities and improved data security**.
- Collaborated with cross-functional teams to align requirements with business objectives and user needs, resulting in a **30% increase in alignment and efficiency** in project delivery.

### Software Development Engineer (Frontend)

Jul 2020 - Mar 2022

#### Aptean

Bengalore

- Introduced innovative features, leading to a **25% enhancement in system functionality**.
- Resolved intricate bugs, achieving a 40% reduction in errors through rigorous reviews.
- Customized system for precise client alignment, resulting in a **35% increase in client satisfaction**.
- Leveraged UFDm for standardized data collection, increasing process **understanding by 50%**.
- Integrated VPFlex for multi-site operations, enhancing capabilities by 25%.
- Tailored ActivViewer and crafted reporting solutions, **improving data visibility by 30%**.
- Optimized user experience, resulting in a 20% increase in client satisfaction and system leadership.
- Recognized for React expertise and commitment, contributing to project success by 30%.

### Software Development Engineer (Frontend)

Dec 2019 - Jul 2020

#### Atos Syntel

- Spearheaded React Application Development, ensuring seamless collaboration and top-tier software solutions.
- Actively engaged in comprehensive code reviews to elevate code quality, maintaining excellence in projects.
- Leveraged Redux for efficient state management, optimizing performance for superior user experiences.
- Expertly integrated diverse APIs to deliver dynamic user experiences, enhancing functionality and versatility.
- Conducted rigorous testing using industry-standard tools like Jest and Enzyme to ensure code functionality.
- Collaborated with designers to create visually appealing and intuitive interfaces, enhancing user experience.
- Utilized front-end technologies like React, HTML5, Bootstrap, and jQuery to craft stunning user interfaces.
- Demonstrated expertise in C# and .NET for backend functionality enhancement and robustness.
- Expanded skills into React Native for cross-platform mobile application development.
- Applied TypeScript to enhance code quality and maintainability, ensuring robust software solutions.

### Engineering Intern

Jul 2018 - Jul 2019

<b>Sonata Software</b>	Bangalore
<ul style="list-style-type: none"> <li>Developed responsive websites using HTML, CSS, and JavaScript, resulting in a 20% improvement in user experience across devices.</li> <li>Contributed to feature development with React and Redux, leading to a 30% enhancement in website functionality and interactivity.</li> <li>Improved website performance and user experience through bug fixing and optimization efforts, resulting in a 40% decrease in page load times and a 15% increase in user retention.</li> <li>Utilized Git and GitHub for efficient code management and tracking of changes, maintaining version control and enabling smooth collaboration.</li> <li>Actively participated in team meetings, providing valuable suggestions for process improvements and enhancements to the development process.</li> </ul>	

## ACHIEVEMENTS

- SOLVED 250+ PROBLEMS OF VARYING DIFFICULTY AROUND DATA STRUCTURES, AND FRONTEND
- AWARDED GEMS AWARD FOR CUSTOMER SATICFACTION IN 2022
- HACKERRANK REACT AND JAVASCRIPT CERTIFICATE
- <https://www.hackerrank.com/certificates/3d1b7ecf061d>
- <https://www.hackerrank.com/certificates/dec0b6d4032e>

## EDUCATION

<b>Scaler</b>	2023
Specialized in Software Development & Problem Solving	
<b>Coursework:</b> Data Structure & Algorithms, Low level design, High level design	
<b>Sambhram Institute of Technology</b>	2019
BE/B.Tech/BS in Computer Science   7 CGPA
